C. D. GULICK QUILTS AS TRAFFIC HEAD FOR GLENDALE

Outlines Reasons for His Resignation in Letter Presented to Council

C. D. Gulick is no longer transportation manager for the city of Glendale. His resignation was accepted last night by the city council. It follows: "Honorable Mayor and Council, "City of Glendale, "Glendale, Calif. "Gentlemen: Whereas, your honorable body has deemed it advisable at this time to withdraw the applications you ordered me to file, via the streets of Broadway and Verdugo road, Glendale, and the yellow car line at Avenue 36 in the city of Los Angeles, also the permit filed at same date via Brand boulevard, Glendale and Glendale boulevard, city of Los Angeles, with the public board of utilities of the city of Los Angeles.

"And whereas, some of the residents of East Glendale complained that same permits, if granted, would interfere with the electrifying of the Salt Lake line on Glendale Glendale boulevard. "Matter of Voting Bonds "And whereas, the honorable body does not believe they should, as formerly agreed with me, place the matter of voting bonds for motor busses on the ballot this fall, in order that the citizens of Glendale may have the opportunity of voting and deciding whether or not they desire motor bus service and lower rates.

"And whereas, there seems nothing further for me to do at this time that would warrant my continuing in my present capacity as transportation manager of the city of Glendale going to further expense in paying my salary and incidental expenses, I, therefore, at this time tender my resignation, to take immediate effect, and trust that your honorable body will see fit to accept the same, forthwith.

Mr. and Mrs. H. C. Binns and two children of Ludlow, Calif., arrived in Glendale yesterday and are guests at the home of Mr. Binns' mother, Mrs. Sarah Binns of 110 East Maple avenue. Owing to the intense heat of the desert and continued tire trouble, they found traveling quite difficult and consumed the greater part of three days in covering 195 miles. They were however not alone in their trouble, as the tourist travel is heavy going both east and west, and at one point on the highway a garage, with a force of twenty-five men, working in three shifts, is kept busy day and night by the motorists in need.

Mr. Binns has been associated with the mechanical force of the Tonopah & Tidewater railway, and has seen the possibilities of the desert heat for the summer, and, owing to an impending strike in the borax mines, he is contemplating locating in southern California.

Old Sol Finds Usherettes Are Tender Victims

An usherette's duty is to find seats. But three of those at the Glendale Theatre Sunday night didn't care whether they found a seat or not.

They couldn't sit down, neither could they lean against the wall, nor could they walk without pain.

Little Mary Greensides was the only usherette on duty, according to Al Cawood, who was in working order. Lulu Linkoer, Harriet Talley and Beniah Hook had hied off to Santa Monica bay and rented bathing suits at Venice. It was a dinky day and they didn't notice the rays of sun, but Old Sol noticed them—every inch that wasn't covered. Coming back on the bumpy-bump bus the girls first became uncomfortable. Arriving at the theatre ten minutes late for work, they were more uncomfortable. Yesterday they were sore all over and today they are recuperating. However, they still are standing up and watching out for sharp corners of the furniture so as not to disturb this superficial inflammation of the skin, as Noah Webster puts it.

NEW YORK, June 20.—For reasons more or less obscure, wise cracking gentlemen peculiar to Broadway are insisting that when Jack Kearns reaches here tomorrow or Thursday he will immediately succumb to the lure of the dotted line and make the Dempsey-Wills extravaganza a reality. Nothing, in all probability, will be further from the oblique intentions of the same Mr. Kearns.

It is certain that Kearns has signed with Floyd Fitzsimmons for a bout, with Bill Brennan for Labor Day.

Neither Kearns nor Fitzsimmons wishes to dispose of Brennan until he serves his purpose. They have lined him up as a buffer between Dempsey and Wills and by way of emphasis for good measure, they talk right on beyond Brennan to Jess Willard and Harry Greb. Proceeding along that line, a score or more will pass on before Kearns lends an ear to anything Wills might wish to say.

Yet Broadway professes to look upon the announced program as so much idle conversation, designed as a ballyhoo to smoke up a bout with Wills that already has been smoked up beyond all need of further publicity.

This is the idea, the worthy Mr. Rickard knows nothing of it and usually the interests of Kearns and Rickard dovetail commendably. Indeed, the promoter indicated yesterday morning he had about abandoned all idea of putting on this black and white number for the heavyweight championship, at least as far as the present year is concerned.

Kearns' demands, he indicated in no uncertain terms, are exorbitant. Therefore, no bout.

Street Improvement Work Under Way

Work is to be started this week on the cutting and grading of streets through the Roland Square subdivision, put on the market by J. Harvey McCarthy, with Darrit Anderson, 117 So Brand, as local agents. Patterson, Fairmont and Pioneer streets are to be cut through from Kenilworth to Chester street.

Tenants who have been farming the land have vacated, and the surveying of streets and lots is complete. After the streets have been cut through and graded, it is intended to pave them. Sidewalks and curbs are to be laid, and shade trees will be put in.

The Roland Square tract practically adjoins the city park, where the public swimming pool is now under construction and it is reported that the lots are already going well.

TO DEPART FOR EAST

Mr. and Mrs. T. A. Vaughan of Pontiac, Mich., who have been spending the winter at 352 West Garfield avenue will leave tomorrow morning for their home in the east. They expect to return to California at some future date to make their permanent home here.

SCOUT LEADERS HOLD CONFERENCE

Louis E. Hoffman of Los Angeles Is Speaker at Burbank Meet

There is no more ideal spot for a council fire than the Burbank Scouts' cabin in Stough canyon and last night Scout leaders from Glendale, Eagle Rock and Tujunga gathered there to discuss plans for summer camping.

Seated on logs about the campfire, lighted by Scout Executive Harold Benner, the company listened to a talk by Louis E. Hoffman, assistant director in the department of field service of the Los Angeles council. Mr. Hoffman spoke on "What the Summer Camp Does for Your Scouts," emphasizing the physical, mental and moral benefits the boys receive in the summer camps.

Following Mr. Hoffman, Leo L. Lang, forest supervisor of the Tujunga district, spoke on the hazards of leaving camp fires and urged the Scout leaders to enlist all Scouts in lowering the danger.

Another speaker was Scout Executive Benner, who told of his recent inventory trip to Catalina and of the arrangements for the vacation camp there. He urged all Scout leaders to attend the camp if possible and stated that over sixty boys have already signed up for the camp.

CONSTITUTIONAL PARTY IS WINNER

Supports Anglo-Irish Peace Treaty, for Ratification Irish Constitution

By DANIEL O'CONNELL

For International News Service. DUBLIN, June 20.—The Irish constitutionalists made a clean sweep in the free state general election, defeating the republicans anti-constitutionalists in all parts of the country, according to further tabulation of the vote here today. The result at 1 o'clock stood:
Constitutionalists, forty-two seats.
Republicans, twenty-three seats.
Independents, nine seats.
Laborites, seven seats.

The constitutionalists support the Anglo-Irish peace treaty and favor the ratification of the Irish constitution by the Dail Eireann. The republicans repudiate both.

Awaiting Decision
Eamonn de Valera, chief leader of the republicans, has not yet announced his intentions. He is awaiting a decision of the republican executive council and Roderick ("Roddy") O'Conner, leader of the irregular faction of the Irish republicans. It is possible that they may decide to oppose the constitution by force of arms instead of allowing the Dail to decide upon it.

The returns from Cork show the election of two constitutionalists. The Countess Markiewicz, supporter of De Valera and an advocate of war, is reported to have been defeated.

If the constitutionalists, independents and laborites were to form a coalition it would give them tremendous strength in the new parliament.

Four representatives of Trinity college were elected.

Arthur Griffith, founder of the Sinn Fein and president of the Dail Eireann, was elected in County Cavan. He is one of the main leaders of the constitutionalists.

The Hawaiian Islands, already world famed as the greatest producers of swimmers, is going to make an effort to achieve fame in two other lines of sport this year. Milton Beamer the sprint champion of the "Paradise of the Pacific" will enter the national A. A. U. track championships at Travers Island, New York this fall. Charlie Chung, a full blooded Chinese and the champion of the islands over the golf courses is the other man who will attempt to put Hawaii in the limelight. Chung will arrive on the Pacific Coast next month and after some tournament play in California and probably in Oregon and Washington will go east to enter the amateur national title events. If Beamer and Chung in their respective sports can do for Hawaii what Duke Kahanamoku and other boys have done in swimming the world will come to look on the Islands as the El Dorado of the sporting world.

The longest long distance race held on the Pacific Coast since the 25 mile Marathon at the Panama Pacific Exposition in 1915 is announced by the city of San Diego to be run on July 4. The race will be slightly more than twenty miles, the start being made from the U. S. Grant Hotel in the center of San Diego. The runners taking the round to the south and coming up the peninsula to Coronado Tent City opposite San Diego. The finish will be in the heart of the famous Coronado Tent City. To date fifteen men are training for the long grind and as entries do not close until June 30 many more are expected to enter. The U. S. Army will have a number of entrants including two full blooded Indians who are said to be phenomenal long distance runners.

The San Diego Rowing club will be fully represented in the California State Rowing championships to be rowed this year on the San Diego Bay on July 4. The border town club is busy with its crews and some special try-outs have been scheduled to be held over the racing course in Glorietta

The Short Crucible

By Davis J. Walsh
International News Service Sports Editor

NEW YORK, June 20.—Whether the west, so highly esteemed by the late Horace Greeley, is sent away in defeat from the Poughkeepsie regatta, seems to remain entirely with Cornell and the championship crew of the naval academy, judging from the consensus of expert opinion. The University of Washington eight is easily the third best crew on the upper Hudson at this stage of the proceedings, they say.

Third best now might be first best, as it were, on race day. A metamorphosis of that hasty kind is not at all uncommon in rowing and were it not for the fact that the cast is extremely well heeled in representative eights—notably the Navy and Cornell—the Washington entry might be regarded with even greater favor at this time.

In this connection it may be mentioned that Pacific coast crews have a habit, almost amounting to a vice, for selecting their visiting years when eastern shells are slipping through the waters with the speed of aquatic ghosts.

It was so in 1913 when the late Hiram Conibear brought on his first Washington eight. The present coach, Ed Leader, was a member of that crew and it closed with a great rush below the bridge to

finish third behind Syracuse and Cornell. The following year Washington rowed a disappointing race and the best it could do was fifth in a field of six.

Then, 1915, came the immortal Stanford eight, considered a great guffaw at first because of its size, awkwardness and general lack of orthodoxism. But the laugh died when Stanford, rowing sensationally, forced one of the greatest Cornell crews Courtney had ever sent to the Hudson to row itself silly before it could win by a slight margin.

Last year it was California's turn to take a fling at the title and but for the fact that the navy, an added starter, was there, with what was probably the fastest shell in the world, California would have won. As it was she finished a very commendable second.

The only real failure among the various western invasions came in 1912, when Stanford trailed every entry in the race.

Like most of its coast predecessors the present Washington ensamble runs much to the size but, unlike many of the others, its watermanship is smooth and sound. The stroke is a bit short but the drive is tremendous and the boat has a great deal of run.

Washington will take quite a lot of beating on race day.

The World Over

PACIFIC SPORTS SERVICE

Pa., courts from J. B. Fenno, Jr., of Harvard in a five-set match which went 3-6, 6-1, 6-4, 1-6, 6-1. Neer's teammates will be Jim Davies and Dick Hinckley, the latter recently having been elected captain of next year's team.

The members of the University of Southern California is made up of Stanton Welch and Greene. No team will go out from any of the institutions of the states of Oregon or Washington.

Last year the University of California was represented by a team, but this institution's players now are making a tour of the Orient, being at the moment in Japan where they are meeting the best of the players in the Flowery Kingdom.

Present intercollegiate doubles champions are J. B. Fenno, Jr., and E. P. W. Feibelman, who won the doubles final last year from the University of California team comprising Ednauld Levy and Wallace Bates. The score was 6-4, 7-5, 10-12, 3-6, 6-4. Naturally, neither of the members of this championship combination will be on hand this year to defend their title. Thus the Pacific coast took the two major titles away from the Atlantic coast.

Neer has been playing right up to his game and there is a strong conviction that he will repeat his performance of last year as it is not believed that there is any one in the intercollegiate ranks in the East who is able to take his measure.

Jackie Coogan in 'TROUBLE' HERE
Many Buckets Of Tears and Bushels Of Laughter at T. D. L. Today

Yes, Jackie will be in "Trouble" at the T. D. & L. theatre for three days beginning today. It is a comedy drama, and by all reports it is considered the best picture Jackie has ever made. And to think that the little fellow is sick right here in Glendale at the sanitarium.

The dramatic and comedy intermin between the ash-barrel episode and the bread and jam grandmothers of "Trouble" is filled as entertainingly as usual with Jackie's pranks.

It is Jackie himself, the starting understanding in his big brown eyes, the elishness of him which is yet always leavened with a go to see him.

"Trouble" supplies buckets of tears and bushels of laughter, but from the very start of the picture one is sure to know that when the poor little Jackie without a home, and his dog are found under an ash-barrel by a big policeman, as the five reels spin out, that he will surely find a home where there's a grandmother and plenty of jam for his bread. But it is that everlasting entertainment that wins every type of theatre-goer, young or old.

The Cards made further inroads upon the Giants' margin of safety at the head of the National league percentage by beating the champions for the second time in succession, Jeff Pfeffer just lasting to the wire to win, 5 to 4.

The amazing Tigers ran their winning streak up to seven in beating the Red Sox, 11 to 9.

Ferdie Schupp came back to his form of 1917 in shutting out the Senators, 2 to 0. Ferdie was trifled with to the extent of four hits only and fanned ten.

The Dodgers came from the rear in the ninth with a four-run rally, tying the score, and then beat the Pirates in the fourteenth, 6 to 5, when Wheat's single sent Johnston home from second.

Four airplanes were expected from Kiangsi province today to aid in the desperate attempt Sun Yat Sen is making to recapture Canton.

Sun, on board a cruiser, is personally directing the bombardment of the city. The three cruisers are located only fifty feet from the Bund and again today kept up an intermittent shelling of the waterfront. The damage to property has been excessive, but the loss of life small. Chen Ching Ming's soldiers kept up a constant rain of rifle fire to prevent landing.

Chen has despatched 12,000 soldiers northward to meet Sun's advance forces and a second battle north of Canton is expected soon.

Interviewed aboard the river cruiser from which he is directing bombardment of the city, Dr. Sun declared he would re-take Canton and that he never would resign. He characterized the coup as the "rankest treachery."

Wu Ting Fang, premier, will not resign the governorship and is actively assisting Sun in his campaign to regain control of his capital.

Miss Chiu, well known aviatrix and daughter of Sun Man, escaped from the third floor window of her home by sliding down a rope as Chen's soldiers entered the front door. She is believed to have reached Hong Kong safely.

MARTHUR, O.—Not only is Rev. C. E. Bateson a preacher, he is also a candidate for the Republican nomination for sheriff of Vinton county.

Rev. Mr. Bateson tells an unusual snake story.

He said he recently killed a mother rattlesnake with seventeen of her tiny offspring. The mother snake swallowed all her young when attacked. Rev. Mr. Bateson said. Then he wiped out the entire brood.

What Do You Need? What Have You Got?

Results from classified advertising in The Glendale Evening News continue brisk in spite of the warm weather and from all indications there is a larger demand than ever before for rented homes, although many have been built to rent recently.

Hundreds of summer tourists are looking to the columns of The Glendale Evening News each week for locations and the realty market generally is quite active.

At this time of the year it is suggested that many trades or swaps can be made and a swap shop is about the only thing lacking in Glendale's business section. Why not use the classified columns of The Glendale Evening News for this purpose?

First Train To Have Radio Permanently Installed

Although the Lackawanna railroad was the first company to make tests of the radio on moving trains it was not considered feasible until just a short time ago, when permanent apparatus was installed in the buffet car of the Buffalo limited. The picture shows a sign announcing radio concerts en route to Buffalo.

SIMPLE DETECTION IN A VACUUM TUBE CIRCUIT

When a battery whose voltage is variable is placed in series connection with a fixed resistance (a simple series circuit) the strength of the current flowing depends directly upon the battery voltage, according to Ohm's Law. That is, doubling the battery voltage doubles the current. By referring to the characteristic curve of a given vacuum tube under given conditions of plate potential and filament current, however, it will be seen that plate current does not increase directly with grid potential. At some points the

If the grid is connected directly to the negative end of the filament through the coil there will be no current in the grid circuit. There will be a plate current of a certain value, however, since the plate is positively charged by the plate battery. If an incoming wireless signal causes an induced voltage in the grid circuit this voltage will be alternately positive and negative. The grid will then likewise be alternately charged positively and negatively. When it is positive electrons will go to the grid and a grid current will flow which increases in strength with the positive charge. It is important to note, however, that when the grid current flows electrons are going to the grid, and, being negative charges, are cancelling the positive potential applied to the grid. The actual potential of the grid does not, therefore, rise to as high a value as that of the potential applied, in fact, when the tube is operated in this manner the positive applied potential does not cause much increase in plate current because the actual positive grid potential does not increase much, if any. When the grid is charged negatively during the next half-cycle of alternating applied voltage no electrons can reach the grid and the actual negative potential of the grid increases with the applied voltage. The plate current then decreases more than it increased in the previous case.

increase of plate current will be comparatively large for small increase in grid potential, while at others it will not be so large. Instead of being a straight line, then, this characteristic curve is bent and considerably more so at its middle portion. In fact, it may be comparatively straight at its middle part. The curve is a graphical representation of the variation of plate current, with grid potential changes.

During successive alternations of applied potentials the same thing occurs over and over, so that if the applied voltage is eventually damped out, the plate current eventually returns to its normal value because the grid potential has returned to zero. It is to be noted that when the grid is positive and a grid current flows, the actual negative potential of the coil and condenser circuit is more rapidly damped and the tuning quality of that circuit impaired.

A NEW LIGHTNING PROTECTOR

A lightning arrester is a necessity with every radio receiving set and is required by the Fire Underwriters. The one illustrated is somewhat a departure from the ordinary and functions regularly, without any attention or deterioration. It is also very substantial in construction.

The arrester itself is clamped between two copper supports by

from particle to particle and thence to ground. This type of arrester is very sensitive to lightning induction and does its work very well. It is found, however, that when it is used close by a transmitting station there is possibility of the signal current. In most cases this would not be disadvantageous, since the signals would be loud enough for all practical purposes. One advantage claimed in this connection is the grounding of static and a diminishing of its effect upon a receiving set. It is this advantage is really practical might well be of considerable benefit in reducing the disturbing noises due to static in the summer time.

California Artists To Hold Exhibition

means of binding posts and mounted upon a porcelain base, which has holes for screws. At one end both a binding post and a Fahnestock connector are provided, while at the other end a binding post and a lug are provided for connections to the circuits.

A small carborundum wheel is enclosed between two copper cups which have toothed edges. The two toothed edges are thus opposite each other and separated by the carborundum. Heavy discharges, such as lightning, cause sparks between the toothed copper edges, and the discharges are also conducted to ground through the carborundum. Lighter discharges, caused by static electricity upon the antenna, are conducted through the carborundum to ground. The wheel is not solid carborundum, but is a mixture of pulverized carborundum and clay. The carborundum particles arrange themselves, so that the resistance of the wheel is very high to small signal currents, but allow comparatively heavy currents to pass

California artists and easterners are to have the opportunity to enjoy an exhibition of paintings by California artists November 1 to December 3 at the Southwest Museum in Los Angeles. There are to be five prizes awarded for the best pictures in the various types of work represented. Awards are to be made during the last week. Announcement of the exhibition states that only those artists may exhibit who have held a bona fide legally established residence in the state of California for a year or longer, last past. Paintings are to be delivered at the museum between the dates of October 13 to 20 and no painting accepted for hanging may be removed before December 4 except by written permission from the chairman of the art committee. Members of the art committee are James A. Nelson, chairman; Mrs. E. R. Bryant, San Francisco; Ernest A. Batchelder, Miss Ellen Scripps Kellogg, Lockwood, Do Forest and Harry F. Marshall.

DRIVERLESS AUTO HITS STREET CAR

Machine Leaves Parking Place, Goes Down Hill, Then Crash Comes

A peculiar accident occurred in Eagle Rock at 12:40 yesterday afternoon when an automobile without driver or passengers collided with one of the electric cars on the Eagle Rock division of the Glendale and Montrose railway company. The touring car which, according to its registration plate, belonged to W. E. Moore, 5134 Pasadena avenue, Los Angeles, had evidently been parked on the steep grade on Sumner avenue. The brakes slipped and the automobile started to roll down hill, gaining speed until, by the time it reached West Broadway, Eagle Rock, it was traveling at more than twenty miles per hour.

A westbound street car, piloted by Motorman William Nagel, was crossing Sumner avenue when the automobile reached the tracks. The automobile plunged into the rear-end of the street car, breaking an air pipe on the latter. The front end of the touring car was considerably mashed. The only damage to the street car was the broken pipe.

Why People Buy Away From Home And The Results

In shopping the average person believes that it is to his direct interest to buy in the city, because he has always had a feeling that there was some way that the city merchant could sell for less than it could be bought for at home. This idea is habit and not the result of a knowledge of the existing facts.

It only requires a moment of thinking—sane thinking, to arrive at the conclusion that not only the idea is wrong, but that buying in the city is false economy, because, in the first place the average price is no higher at home, and in the second place every dollar spent at home helps to promote local development and very surely contributes to the increase of local property values.

Every citizen—every resident is urged to get behind this campaign with a determination to fight for a co-operation which can have but one result—a bigger, better and more progressive Glendale. This can only be accomplished in one way—keep the money at home—patronize home industry—home merchants.

Money sent out of a community is gone forever. It never returns. There is no real reason today for the vast amount of money being spent in adjacent cities, where it can never have an opportunity to aid in the building development locally, but, on the other hand, there are many reasons why it should be kept at home where it can multiply and react to the advantage of everyone.

UNITED STATES WOULD BE BANKRUPT

To emphasize the point, assume the United States as a nation would adopt a policy of buying in foreign markets everything which is needed and consumed within its boundaries, disregarding home industries with their enormous production of every class of merchandise. How long would it be before the country would be pauperized?—bankrupt? Naturally what is true in one instance would follow in the other.

Again, it is recommended that more shopping be done at home. The merchants whose advertisements appear on this page have an interesting message for everyone—read them all.

**PREPARE TO GET
YOUR CHERRIES!**
About 20,000 Pounds Will
Be Sold This Season at
Stadler's Store
When you were a small boy and
weren't able to do much other
than climb around the neighbors'
fruit trees and help yourself, did
you ever wish that there were ten
tons of cherries already picked
and that you were in the center of
them?
Yum, yum, we'll bet you did,
and then on second thought now
you are glad that ten tons of cher-
ries have never crossed your
path. Yet 20,000 pounds of cher-
ries will be sold this season by
Stadler's on Glendale boulevard,
just south of the Southern Pacific
Glendale tower.
Glendale ought to get its fill!

**Gabe Cox Praises
Local Baseball Team**
"Why don't Glendale baseball
fans 'chip in' to buy bleachers for
the Glendale baseball team?"
This is the inquiry of Gabe W.
Cox, manager of the Southern
Glendale Dry Goods store at 1510
South San Fernando Road.
"They put up a good game Sun-
day," he remarked yesterday. "It
was slow but exciting just the
same."
"I would like to see a better
crowd turn out. They are a good
set of boys. They hold their tem-
per the finest I ever saw and
played ball. All they need is a
little encouragement."

**Hist! Radio Fans
Missed Something
Important, What?**
Scandal!
C. L. Brenkman says he al-
most heard some the other day.
He was listening in on his
radio set at his electrical ap-
pliance store at 1524 South San
Fernando road.
He got the range of the
Catalina-San Pedro wireless
telephone and heard a male
voice exclaim:
"Well, I've got something
important to tell you, but there
are too many 'birds' with
radio sets listening."
Of course, Mr. Brenkman is
not at all curious—being a man
but, well, he WOULD like to
know what that "something
important" was—don't you?

and Mr. Reichenbach believes if
there is oil there, some is under
his land also.

Attracts Attention**
The set of walnut dining
room furniture finished in Italian
Renaissance style is the cause of

Russell Pierce declares that the
price of the suite is about half
that asked in Los Angeles.

Mr. and Mrs. Scott F. Whitaker of South Brand boulevard left this morning for a several days' business trip to San Diego. They went by automobile and will stop at Chula Vista, National City, Coronado and other places.

Miss Margaret McOmber, whose engagement has been announced to Stanley Jordan of San Francisco, is planning to return early in July to the home of her parents, Mr. and Mrs. J. L. McOmber of 1530 East Broadway, to prepare for her wedding.

Children and grown-ups at the Casa Verdugo Methodist Episcopal church are looking forward to Saturday, July 1, when all members of the church school and congregation are to journey to Brookside Park, Pasadena, for their annual picnic outing.

Mrs. E. J. Cunningham and two sons of 114 North Orange street left Sunday for an extended trip which will take them to her former home in Pennsylvania. Mrs. Cunningham has been a music teacher here for several years.

D. H. Tibbets from Parsons, Kan., came to Glendale with the intention of residing, it took him but 30 minutes to buy Mrs. Ellis' home at 618 West California avenue, after being shown the property by E. T. Allen, of the H. L. Miller Company agency, 109 South Brand boulevard.

Rev. and Mrs. Denman DeLong and daughter, Mrs. Ruth Hayght, and the latter's daughter, Marjory Hayght, all of Chicago, were guests yesterday of Mr. and Mrs. S. B. Van Oss of 210 North Belmont street. Rev. and Mrs. DeLong and family are now located at Highland Park.

Mrs. R. W. Meeker, curator of the arts and crafts section of the Tuesday Afternoon club, is to be hostess Thursday afternoon at the annual meeting and election of officers of the section. Members have been asked to meet at 2:30 o'clock at the Meeker home at 1320 East Colorado street.

Postmaster D. Ripley Jackson and Mrs. Jackson returned Sunday from San Francisco, where they enjoyed the Shriners' convalescence at the Shriners' Julia Hinsdale, who is past 80 years, with them by motorcar to their home at 1800 South Brand boulevard for a visit. She resides at Seattle.

Attorney and Mrs. R. A. Ramey of 467 West Harvard street returned yesterday from a several days' motor trip to Colton, where they visited their daughter, Mrs. C. M. Young. Mr. and Mrs. Ramey also stopped at Riverside and Yucaipa valley, where they declared the cherry and apple crops are very heavy this year.

Mr. and Mrs. H. B. Grenfell of 1101 East Broadway and Mrs. S. Babcock, who are spending a week at Camp Potter, Big Bear Lake, report a most enjoyable vacation outing. Mr. Grenfell is taking his vacation from his duties with the Fox-Woodman Laundry company. Mrs. Grenfell was formerly a member of The Evening News staff.

Mr. and Mrs. G. Edwin Murphy of 421 North Brand boulevard entertained with a dinner party at their home in the yard at the celebration of the birthday anniversary of Mrs. Carl Seitter. Decorations were carried out in a color scheme of pink and white. The guests included Mr. and Mrs. Carl Seitter, Mr. and Mrs. James Carson of Hollywood, Dr. and Mrs. Raymond Murphy, Mr. and Mrs. Ellis Thomas, Mr. and Mrs. E. O. Kiefer and the host and hostess, Mr. and Mrs. G. Edwin Murphy.

Something that hasn't happened for 100 years is taking place in the yard at the Fox-Woodman Laundry at 200 North Verdugo Road, where a tall century plant is just about to burst into bloom. The folk tale tells that the shock was mutual when Rip Van Winkle ambled back to the village and greeted his friends after his twenty-year snooze. But Glendale can go that tale one better, for this is the twentieth century and what has happened here in a century's time is enough to make even a modest century plant lift its drooping head with pride.

MASS MEETING CALLED A mass meeting has been called for 7:30 o'clock tonight at the Central avenue school and an invitation extended for all persons interested in the extension of Patterson avenue to attend.

GIRLS GET HONORS

DURING TERM AT HIGH SCHOOL

Physical Education Work Of Closing Year Brings Awards to Number

(Continued from Page 1) ment of the students are the aims of the club and awards of honors are made on the basis of individual rating in class work, tests, class spirit, decathlon, credits and demerits and team activities.

For 500 points a girl is awarded a blocked black and red felt school letter G. If she then scores 700 points she receives a second honor and for 900 points a third honor. The highest score attainable is 1100 points. When a girl has won her letter further honors are additional stars, each star being marked with the symbol of the sport in which she has been captain. If she has served as captain in the sport she receives recognition of that by a bar under the star.

This year Miss Alexandria Bagley receives special mention because she has won her 500 points in one year's time. This is all ways a possibility but is unusual, most girls taking more than a year to acquire the necessary number of points for a letter.

Sharing honors with Miss Bagley are three other girls who have won enough points for letters, but having previously received this honor, they will simply be awarded stars. They are Misses Dorothy Colton, 608 points; Lula Drake, 502 points, star for tennis, and Dorothy Van Ossold, 500 points.

Others Win Honors Others to receive stars are: Misses Eloene Truitt, 320 points; Jessie Griffin, 298 points; Lucile Nelson, 445 points; Frances Drake, 470 points; Eula Stevenson, 200 points; Gladys Hollingsworth, 412 points; Kathleen Campbell, 224 points; Freda Potts, 338 points, and Orrell Hester, 435 points.

"The response of the girls is most inspiring," says Miss Knight, "and out of our 650 or more girls we find not more than four or five who are indifferent and uninterested. As a further incentive to the girls we are planning to offer a gold pin for the highest honor, which is a real honor because it is so hard to attain."

During the year the girls have enjoyed volleyball, basketball, tennis and baseball, as well as the regular gymnasium work. There have been inter-class, inter-squad and inter-school contests and a special feature has been the hiking and camping trips to the mountains and beaches.

Records In Detail For the interest and information of the girls and school visitors carefully printed charts hung in the gymnasium furnish a comprehensive outline of the athletic and physical education record of each girl during her four years of high school. Special cases are now being made for these charts and they are to be kept under glass for preservation and reference. It is of interest to those admiring the work on these charts to know that it was done by one of the high school girls, who received several points to her credit for the splendid work and spirit of co-operation.

In carrying out the organization the girls of each class are under a class captain and each class group is divided into ten squads and each squad has its own captain, who records all data upon which the club honors are awarded.

Another part of the student administration embraced by the club is the care of the girls' rest room. This room is for the use of any girl who becomes suddenly ill or is injured on the school grounds. One of the girls of the athletic club has full charge of the rest room, it being her duty to supervise its arrangement and use and she receives honor points in keeping with the efficiency of her services.

Oil Paintings Win Favorable Comment

A most interesting display of oil paintings by J. S. Schultz in the windows of the Glendale Music company, 109 North Brand boulevard has been attracting considerable attention and favorable comment. Mr. Schultz is a recent newcomer to Glendale from Akron, Ohio. Mr. Schultz in addition to being an artist is also an interior decorator, specializes in public buildings, and also does designing, painting, ecclesiastical paintings and mural decorations. At the present time he is located at 109 South Cedar street. He states that his family will move here in the near future and will make their permanent home in Glendale.
Mr. Schultz studied at the Academy of Fine Arts in Philadelphia and has exhibited his paintings in New York, Philadelphia, Boston and at the Albright Art Gallery of Buffalo, N. Y., where he is a member of the Buffalo Fine Arts Academy. His display of paintings here includes "The Caravels"—three Spanish ships, which might suggest a voyage of Columbus; "The Immaculate Conception," "Christ in the Garden of Gethsemane," "The latest which has been added to the display is that of "The Dream Garden," which has just been completed by Mr. Schultz. He states that his inspiration for painting this picture came after reading the book, "The Dream of Heaven," and in which he seems to have incorporated the feeling of rest, peace and quiet.

Mrs. Whitaker and Daughter Entertain

Mrs. J. L. Whitaker and daughter, Miss Ina Whitaker, entertained quite delightfully at an informal garden tea Saturday afternoon at their home, "La Casita," 112 West Elk avenue. Mrs. Reginald Whitaker of Westgate, Mrs. L. L. Markey and Mrs. Charles Hunt of Los Angeles assisted the hostesses in receiving and serving tea. Mrs. Charles Parker sang a charming group of songs during the afternoon and Mrs. Clara Seymour of Hollywood gave a splendid rendition of an aria from "Aida" (Verdi). The other guests of the afternoon included Mrs. W. A. Seymour, Miss Adelaide Moore, and Miss Mabel Moore of Hollywood, Mrs. William Walters, Mrs. Eley, Mrs. H. H. Faries, Mrs. Frank, Mrs. Alexander Mitchell, Mrs. R. E. LOTS OF ACTION IN THIS COMEDY

Rupert Hughes' Story On Glendale's Screen Wins Plenty of Applause

Your feet will want to dance in time with the rapid comedy pace of Rupert Hughes' new Goldwin photocomedy, "Come On Over," which is at the Glendale theatre for the last times today. It's Irish and it's American and it's funny and it has a dancing finish that will go straight to the heart—as well as the feet—of anybody who sees it. Charming Colleen Moore has her best role as the Irish lass left behind by her sweetheart started for America to make his fortune.

"His Wife's Son," with Chester Conklin, is another comedy offering that made a great hit last night. Other numbers on the program are equally as good.

NOTHING? ONE-TO-SEVEN.

The Evening News Job Department is equipped to render you service in up-to-date printing.

J. A. Newton Co. Birthday Party to Be Event Tonight

This is the birthday of the J. A. Newton Electric Company. The firm now is twelve years old and tonight there is going to be a grand reception, birthday cake and everything electrical from 7:30 to 11 o'clock.

One of the big events before 9 o'clock will be the radio concert furnished by the radio department of the store. After that the employes' orchestra, one of the jazziest bunch of musicians in the city, will play. Demonstrations also are on the program.

Refreshments prepared electrically will be served during the evening and Mr. Newton and his employes are going to take the opportunity of thanking each and every one of the many patrons for their trade.

W. B. KELLY SEES REAL NEED FOR VACATION

Business So Good In Realty Line He Plans Fishing Trip to Mountains

W. B. Kelly, realtor at 108 West Colorado St., reports a good volume of business for the past few days. The influx of home builders is continuing in encouraging volume, he says. Recent sales of both residences and residence building lots, he believes, bear out the assertion that this is the City of Homes.

Among the recent deals handled by Mr. Kelly are the following: Frank Hillis of Glendale bought another lot on Alexander street and will build another house as soon as he completes the one now under course of construction.

George Meyers, of the Glendale fire department, has bought a new five room Colonial style bungalow on West Elk Ave. and will move in soon.

Ed Barnett, builder, at 108 West Colorado St., bought an 80x145 foot lot on East Elk Ave. Comes From Bay City

Mrs. Anna Haines, until recently of San Francisco, has moved to Glendale to make her permanent home. She has bought a lot on East Elk Ave. near Louise where she will start building two duplexes at once.

Frank Hillis and W. B. Store, formerly of Phoenix, bought a lot on West Myrtle street, and have started the erection of a residence there.

J. B. Smith purchased a six room house at 320 West Maple Ave. He contemplates making various improvements to the property.

W. H. Gilmart of Saugus, has bought the first radio-equipped duplex house at 530 West Elk Ave., as income property.

J. W. Robinson, who recently returned to Glendale after a four years' absence, has bought a six room house on Acacia Ave., and plans to move in about the first of July.

Other Deals, Then Rest

Mrs. May E. Robinson purchased a home at 250 West Harvard street. Her daughter and grandchild are now living with her there.

Adelia M. Sallstian bought a residence lot on Patterson Ave., near Central avenue. She will move to this property the house now on the Colorado street lot which was recently sold.

With this amount of business continuing as it does, Mr. Kelly has decided that by the middle of summer he will deserve a well-earned vacation. Some time in July, with his wife, he plans to drive to the mountains where the streams run clear and cool and trout bite greedily, and there take a much needed rest.

George B. Karr Pants Hard When He Tells This One

George B. Karr of 1150 North Louise street is wearing his first pair of long trousers. Mr. Karr is known to many as the manager of the factory at 1725 South Brand boulevard of the Baldwin Shirt company.

However, he has been wearing long trousers for a long time. In fact, he says he wears 'em so long that he uses up three shirts for each pair. So this is another George B. Karr. It is his son.

COMMENT THAT'S ALL

'Tis Graduation Week Man-Made Lightning One Home Gladdened Duty to Home Town

By Gil A. Cowan

THIS is graduation week for Glendale Union High school as well as hundreds of other educational institutions throughout the country.

Thousands of young people are going forth with their diplomas, looking for new fields to conquer or find their niche in the scheme of life.

In California the opportunities seem to be greater than elsewhere, although there is opportunity for Californians everywhere in the world.

Something intangible gives the western boy or girl an advantage over the others in many ways, for here they have obtained the health, the cosmopolitan atmosphere and the knowledge of much more than most of their eastern cousins.

Their health gives these California young people endurance, in almost any climate; their cosmopolitan manners make them acceptable to almost any company in the world over, the north, the east or the south; and their knowledge, not necessarily born of schooling alone, gives them vision and imagination and comprehension.

There is little need to comment further than to say that the sheepskin or parchment is not the greatest gift a student may be endowed with—the fact that he or she has been schooled in California counts for much more.

Dr. Charles P. Steinmetz, who is known as the modern Ajax, is having a lot of fun this summer, if you do not mind calling electrical experimentation fun.

He is making artificial lightning and then seeing what happens. With only 1-500 of the charge that the usual bolt carries, the professor is able to split small trees and send the splinters for 25 feet.

One million horsepower is tied up in one of the bolts which he produces in the same manner as the natural lightning. However, both are impractical and simply disclose how powerful nature and science may be. Despite the tremendous energy of thunderbolts, Dr. Steinmetz says, they would be worth only a few cents apiece.

Only a week or so ago, a man advertised for a home here in which to place his small son.

It was surprising the number of fine homes which were offered. Certainly, there was proof that the people of Glendale are generous and charitable, although the matter of money was not half as serious as finding a fitting place for the little lad.

Some of the letters were pathetic. "Shattered dreams were written in ink mixed with tears. Many a mother's heart cried out for the opportunity to have the little visitor.

And to think of the grand and glorious feeling which must pervade the home where he has been placed. Gee, they must be glad.

Under the caption, "Your Duty to the Home Town," the San Fernando paper says:

"Peddlers and solicitors are coming into San Fernando with oily tongues and glittering promises, and all too many of our people are falling for them.

"Citizens of San Fernando will confer a decided favor upon themselves and the town by turning a deaf ear and a locked door to the 'artists of the financial highway.'"

"Get this and get it good: The home town merchant contributes to every community enterprise, pays his license and taxes, and is worthy of the consideration and support of the people about him.

"Peddlers and solicitors have no further interest in San Fernando than the dollars they can make out of it—dollars that should be kept in your pocket and in your pocket—dollars that make for community building."

EVANSTON, Wyo. — A "field mice plague" is being combatted in the vicinity of Knight, Wyo., in Uinta county, close to the Utah line, where, it is reported, hordes of mice are creating havoc on farms and ranches. Millions of the rodents are in the region, ranchers report, and are stripping the fields. In many instances, reports say, the mice are invading farm houses and destroying household furniture by gnawing at articles of wood. Pupils in a district school recently bagged nearly 300 of the pests in a "mouse hunt."

BOOM UNDER WAY FOR JOHN LEWIS

Head of Mine Workers Is Being Urged As Leader of American Labor

By WARREN W. WHEATON
For International News Service.
CINCINNATI, June 20.—The American Federation of Labor may yet be torn apart by internal political strife before it really gets down to work and prepares to adjourn.

In the late hours of this morning, after a session which began late last night, friends of John L. Lewis, president of the United Mine Workers of America and opponent of Samuel Gompers for the presidency of the federation last year, had started a full fledged boom for him again.

Up in one of the local hotels prominent leaders of the so-called "counted noses" after a day devoted almost entirely to intensive election campaigning.

Short of Majority

They were not altogether satisfied that Lewis could be elected labor's head when the boom meeting broke up after 3 o'clock this morning. There are a total of 31,464 votes in the convention. Close tabulating of the votes which Lewis might count indicate he would poll 12,848, which falls 2844 short of a majority.

While the convention delegates were anxious today over the political phase of the convention and the threatened "blow up" of harmony, plans went forward for the alliance between the coal miners and the railroad employes, who probably will strike early in July.

Legal minds called here by the labor chiefs in conference are understood to have told them there need be no fear of conspiracy charges growing out of such a combination of forces.

Convention leaders admitted today that unless the meeting was speeded considerably adjournment this week will be out of the question. So far little of the real work of the convention has been concluded.

Mrs. E. Stewart and Daughter to Iowa

Mrs. E. Stewart and daughter Mildred, who have been guests of Mr. and Mrs. J. A. Robinson of 420 Oak street, are to leave Wednesday morning for their old home in Tama, Iowa. They plan to return in the fall to make their permanent home in Glendale. Mrs. Stewart and her daughter came to California last winter with a view to selecting a location for a new home and after visiting the various parts of southern California they decided that Glendale was the ideal place.

Resignation of C. B. Gulick

Resignation of C. B. Gulick, manager motor bus department, was received and read. On motion of Councilman Stephenson the resignation of C. B. Gulick, to take effect immediately, was accepted, and the clerk was instructed on behalf of the city council to extend an expression of
